

HZDR Innovation GmbH is a dynamic technology transfer company transforming cutting-edge research into real-world industrial solutions. Leveraging the expertise and advanced infrastructure of the Helmholtz-Zentrum Dresden-Rossendorf and other renowned international institutions, we execute high-value service and production contracts for industry. We also support spin-offs, prototype development, and small-scale manufacturing—turning groundbreaking ideas into market-ready high-tech products.

With a diverse portfolio spanning analytical and production services to advanced sensor technologies, we continue to grow. To strengthen our Ion Technology management team, we are seeking a highly motivated

Quality Engineer / Quality Manager

to join us as soon as possible for a two-year position with the possibility of extension.

Your Responsibilities

- Collaborate closely with production teams and customers, handling both operational and system-level quality management tasks.
- Ensure compliance with ISO 9001, leading, organizing, and overseeing relevant quality-related activities.
- Further develop management system documentation and, if necessary, support certification for additional standards.
- Assist production in risk prevention and quality assurance using your expertise.
- Work with production managers to analyze defects, process complaints, manage production approvals, and compile statistical reports.

Your Profile

- Technical background (Technician, Master Craftsman, Certified Specialist) or a degree in a STEM field.
- Solid knowledge of ISO 9001 and key quality tools (SPC, FMEA, Control Plan, 8D); familiarity with ISO 14001, ISO 45001 is a plus.
- Analytical, structured, and precise working style, with a strong service-oriented mindset.
- Proficiency in MS Office (Word, Excel, PowerPoint, Outlook); experience with CAQ software is advantageous.
- Fluent in German & English (C1 level); knowledge of Slovak or Czech is a plus.

What We Offer

- Full-time or part-time employment with flexible working hours.
- A modern workplace in an innovative and internationally active company.
- Personalized onboarding and professional growth opportunities.
- Competitive salary plus:
 - Company pension plan
 - Childcare subsidy
 - Tax-free benefits
 - 30 days of annual leave
- A diverse and stimulating role with real impact.
